

SUMMER 2022 Workshops for Teens

IN PERSON AT LISTENING

The Art of Dreams

Instructor: Jen Swan

Join us this summer for two workshops exploring art inspired by dreams. We will learn the traditional art of weaving an Ojibwa Native American dream catcher using waxed linen, leather cord and glass beads. Then, we will create a painted collage exploring Surrealism, the style of art which focuses on the power of the unconscious and dreams. The movement's artists find magic and strange beauty in the unexpected.
